PROFESSIONAL SUMMARY

Software Engineer with 4+ years of experience delivering frontend and backend solutions for enterprise clients across multiple industries. Proficient in JavaScript, Java Spring, and REST API development, with hands-on involvement in production deployments and incident resolution. Proven ability to collaborate cross-functionally with QA, Product, and Engineering teams and consistently deliver features on schedule in Agile environments.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, PHP

Frameworks & Libraries: Java Spring, Vue.js, React, Redux, Laravel

Databases: PostgreSQL, MySQL

Tools & Platforms: Wavemaker, Git, GitLab, GitHub, Docker, DBeaver, Postman, Eclipse

Practices: Agile/Scrum, REST API development, cross-functional collaboration, production support

WORK EXPERIENCE

PT Solusi Kode Indonesia | South Tangerang, Indonesia | *Mar 2022 – Present*

Software Engineer

- Delivered frontend and backend features across 10+ active enterprise clients spanning banking, capital markets, and multi-finance sectors using Wavemaker, JavaScript, and Java Spring — covering UI behavior, REST API integration, and business logic implementation.
- Resolved 30+ production incidents across frontend and backend layers, reducing issue-resolution time and maintaining system reliability for mission-critical operations.
- Executed Docker-based production deployments via SSH, handling release coordination, environment consistency, and rollback procedures across staging and production environments.
- Collaborated with QA, Product, and Engineering teams in Agile/Scrum workflows, translating business requirements into technical solutions delivered on schedule.
- Contributed to code reviews and internal documentation, improving onboarding time for new team members and maintaining code quality across projects.

DesktopIP Limited | South Jakarta, Indonesia | *Jun 2020 – Nov 2020*

ERP Consultant Intern

- Conducted client discovery sessions to gather business requirements and translated findings into ERP system proposals.
- Collaborated with the internal team and fellow interns to test and validate ERP solutions, documenting bugs and reporting findings.
- Produced client-facing documentation including user manuals, video walkthroughs, and presentation materials.

EDUCATION

Universitas Indonesia | Depok, Indonesia | *Sep 2017 – Jan 2022*

Bachelor of Information Systems

CERTIFICATIONS & TRAINING

- Digital Skola: Cloud Engineer Training (2026) — Hands-on fundamentals in cloud computing and infrastructure
